UNITED STATES DISTRICT COURT FOR  
THE EASTERN DISTRICT OF MICHIGAN

JURISDICTION

28 U S C 1343 CIVIL RIGHTS & ELECTIVE FRANCHISE

28 U S C 1332 DIVERSITY OF CITIZENSHIP

ANITRA ELAINE CRAWFORD,

Plaintiff,

vs.

RANDALL STEPHENSON, AT&T, et al

Defendant

Case: 2:16-cv-10218  
Judge: Edmunds, Nancy G  
MJ: Whalen, R. Steven  
Filed: 01-22-2016 At 09:40 AM  
CMP CRAWFORD V. STEPHENSON ET AL (N  
A)

AMENDED COMPLAINT

**MOTION TO AMEND COMPLAINT**

Venue is proper pursuant to 28 U S C 1391 issues within this amended complaint  
continues to happen in this district

AMENDED COMPLAINT

1 I have filed an amended complaint because of my civil rights violated  
2  
3 by Judge Denise Page Hood and Judge Stephen J. Murphy III of the U.S. Eastern  
4  
5 District Court of Michigan. Both have failed of their position to remedy my issue  
6  
7 that was brought previously before the court. As an aggrieved person, issues  
8  
9 continue and have made me a target to various forms of harassments, suffering  
10  
11 sudden injuries, inhuman acts by strangers of their interference directly and  
12  
13 indirectly when I'm with my children trying to enjoy activities and events, when I  
14  
15 have business appointments or try to enjoy events or go about daily routine  
16  
17 activities.

18 I have suffered harassments while driving both on local streets and on  
19  
20 highways by drivers intentionally doing foolish and distracting acts of rushing out  
21  
22 at the last moment in front of me, almost causing an accident or to cause me to  
23  
24 miss an exit or be late and hinder my arrival to my destination. There have been  
25

AMENDED COMPLAINT

1 several times of nearly being hit by vehicles, when having the right of way, being  
2  
3 stalked, and at random persons commit foolish acts and sometimes loudly hollering  
4  
5 out derogatories when passing by me in vehicles or on foot.

6  
7 I'm suffering everyday whether it's to my health or dealing with the  
8  
9 public's foolishness. I have complaints, grievances, pictures, videos and keep a  
10  
11 record of such acts which reflects dates, times and patterns of harassments that  
12  
13 shows it to be deliberately plotted and proof of me being targeted.

14  
15 Another issue that I have are with the cell towers, transmission lines  
16  
17 and antennas that give off direct and alternating currents that are responsible for  
18  
19 producing electromagnetically charged fields and transmissions of signals  
20  
21 (information) being received and transmitted. Instant exposure and absorption of  
22  
23 emissions wherever I'm at and my health affected by it. I have researched and  
24  
25

AMENDED COMPLAINT

1 received material on radiation effects and other info on protection within the  
2  
3 environment from various agencies. (government and non-government).  
4  
5  
6

7           However, I still suffer from the effects of high frequency  
8  
9 transmissions, whether out in public and inside residence. A few times I have  
10  
11 witness heavy static when pulling off my coat and sweater just coming from  
12  
13 outside. The absorption rate and exposure are high due to the severe pain, heavy  
14  
15 vibrations oscillating throughout my body, burns and shocks which are carried on  
16  
17 in the form of induction of electrostatic, externally and internally of the body  
18  
19 experienced on a daily and nightly basis. And there's a flow of static throughout  
20  
21 the surface of my room and is felt upon my skin, clothes, electronics and other  
22  
23 materials.  
24  
25

AMENDED COMPLAINT

1 Other issues are the capabilities and services that these transmitting  
2  
3 structures provide. Since communication and other utilities are supplied and there's  
4  
5 a saturated charged field, signals from any source are generated within an open  
6  
7 frequency and transmitted to registering databases that automatically capture  
8  
9 signaling transmissions, with the aid of my implant that provides a stable  
10  
11 frequency and instantly and continuously transmits my signals. This information  
12  
13 ranges from all confidential to business including genetic information. Also  
14  
15 provides capabilities for surveillance and real time tracking.  
16

VIOLATIONS

42 U S C 1988

18 U S C 249

## SECTION I

AMENDED COMPLAINT

Patterns of harassment have become routine. Displayed acts of delay and compromise, defamation and slander, deceit and intimidation, false witnessing and falsifying documents or records and hostile behaviors are committed whether on or off duty. These acts and behaviors listed, is in connection with fraudulent and criminal acts that will be outlined throughout this complaint. Display of being subjected to daily harassments, invasion of privacy, severe bodily injuries, humiliation, intentional infliction of emotional distress, cases of physical violence and deception with prevocational acts. Defendants and coconspirators actions are in unison, carrying out and displaying both chain and civil conspiracies and a deliberate reckless disregard with malice, intentionally violating various human rights which is a constitutional violation and subjection of acts of slavery.

VIOLATIONS

INTERCEPTED COMMUNICATIONS  
ELECTRONIC SURVEILLANCE

AMENDMENTS 1<sup>ST</sup> 4<sup>TH</sup> 9<sup>TH</sup>

50 U S C 1810  
18 U S C 2707

18 U S C 2511 (1)(a)-(e)(i)  
18 U S C 1963

## SECTION 2

AMENDED COMPLAINT

Defendants and coconspirators are held liable for willfully knowing that all communications {WIRE, ORAL & ELECTRONIC} were and continues to be **broadcasted over an open frequency**. And allow easy access to computers, phones (landline/wireless), other transmitting electronic devices and any databases that captures, registers and stores information in real-time. This automatically affects any information including all personal, confidential, business transactions, health matters and my genetic info (DNA) and daily activities. This covers also any and all types of contracts, which are considered breached and is voided.

**VIOLATIONS**

## MEDICAL MALPRACTICE

## HIPPA &amp; HITECT ACTS

42 U S C 1177

42 U S C 13409

42 U S C 1180 (b)(3)

42 U S C 13421

## SECTION 3

Physicians, dentists, nurses, specialists, psychiatrists and other outpatient services are liable for the violations outlined in section(s) 1, 2 & 3;

Failed to uphold the HIPPOCRATIC OATH, failed to carry out the FIDUCIARY

AMENDED COMPLAINT

1 DUTY. Individuals responsible continues to allow me to be subjected to  
2  
3 reoccurring injuries and environmental hazards and have breached all contracts.  
4  
5 According to Michigan State Law: **MCL 333.17078**, the assistant to the physician,  
6  
7 has Assistant Privilege. However, if such involvement to violations listed, then the  
8  
9 privilege is void. For the record, I wasn't aware of the statute of limitations, at the  
10  
11 time of the first occurrence of the malpractice, and that Federal Courts do not  
12  
13 recognize Doctor-Patient Privilege. The court can still view such evidence as a  
14  
15 violation of the 4<sup>th</sup> amendment and issues are currently part of an ongoing  
16  
17 conspiracy, which is the primary source to my defamation claim and has partial  
18  
19 responsibility to my present injuries. Medical professionals knew and continue to  
20  
21 allow unauthorized and illegal acts to occur, resulted in delayed treatment that  
22  
23 could have cured all my health issues.

24 Instead falsified my diagnosis after not believing or taking me  
25

AMENDED COMPLAINT

1 seriously when I expressed personal details about my health, and showed a strong  
2  
3 bias after hearing of such details of my health, resulting in falsely labeling me with  
4  
5 a mental illness. Such opinionated and unprofessionalism has caused defamation  
6  
7 and slander amongst my medical record and with other involved entities. This has  
8  
9 created a pattern with other physicians and specialists that follow the same pattern  
10  
11 of the first doctor that started this problem. Appointments are rushed and not  
12  
13 thorough, or focused on the main issue of my health. I'm subjected to many  
14  
15 unnecessary tests and recommendations for other procedures and repeatedly asked  
16  
17 unnecessary questions that pertain to mental illness issues. Due to the violations in  
18  
19 section(s) 1 & 2, there are concerns with unauthorized handling, tampering or  
20  
21 alteration of medical records and conflicting statements on forms I received  
22  
23 compared with those records.

**All are Subject to violations in section(s) 1, 2 and the 4<sup>th</sup> amendment.**

**Major concerns that affects receiving help/relief from governmental and non-governmental entities:**

1. Interaction and involvement with government and it's agencies
2. Having a partnership, contracts and funds of an agreed amount in exchange for services with the FBI

**Other major concerns**

Aiding in allowing individuals responsible for illegal acts by their usage of outside utility/transmission structures that provides reception of electricity/communications with the usage of devices/implants as a form of a dangerous weapon against its target

1. History of company having issues of:
  - (a) excessive signal output
  - (b) hazardous voltages
  - (c) improper interconnection
  - (d) monopolization
2. Responsible for various classified contracts and employees having government security clearances

AMENDED COMPLAINT

Federal Bureau Investigations  
Detroit Field Location

**Subject to violations in section(s) 1 & 2**

Dates 8/17/2012 & 11/28/2012 met with an agent to discuss and hand over material as evidence to the harassments that subjected me as a target. After initial conversations, was advised by the agent's information pertaining to what I handed in. There wasn't any more contact from them all through and up to this year (2016), with no resolution.

Date 11/16/15 again went to location and met with agent to discuss and give over materials as evidence. Was advised again and is on standby for any resolution over the matter that was discussed.

This includes past physicians and other specialists. Subject to violations with all those listed include nurses, and other affiliates involved on date of services attended.

**All are subject to violations in section(s) 1, 2 & 3**

The statute of limitations is past for me to pursue a Medical Malpractice case in State Court against Dr. Kachner. However, the issue that arise out from his conduct has cause adverse effects with my medical records and is still part of an ongoing conspiracy.

Issues stemmed from Dr. Son's conduct reflects wrong diagnosis of my pregnancy and advice given, which is also part of an ongoing conspiracy.

AMENDED COMPLAINT

1 With Dr. Ballouz, an issue of information documented in my medical records and  
2 no one can explained who recorded them into my file. And issues of abnormal  
3 readings of some tests done, though I was told that I was ok. This is also an issue  
4 with other tests done at other hospitals.

15 “And all other medical, court personnel & affiliates involved on dates of service”  
16

17 **All subject to violations in section(s) 1, 2 & 3**

18 All have conspired to deliberately take away permanently my daughter based on  
19 stated issues of violations in section(s) 1 & 2. I have missed much time of my  
20 daughter’s development and have been falsely accused and suffered defamation  
21 and faced unnecessary court appearances, meetings, giving documents to prove  
22 something already known or doesn’t apply and baring of my daughter being  
23 around unknown persons as foster guardians and not knowing the status of her  
24 health and surroundings.  
25

AMENDED COMPLAINT

1 I have witness Ms. Price, a **Child Protective Specialists, of the DHS**, falsifying  
2 my daughter's verification of birth form, issues of forms received with different  
3 appearances of signatures by judges, increased issues outlined in section '1' of  
4 violations pertaining to my personal records and in court has perjured herself under  
5 oath. After false allegations to and reports documented from Child Protective  
6 Services on me, Ms. Price has intentionally subjected me to meeting demands that  
7 determined the decision to be able to take my daughter home. Instead delayed time  
8 with my daughter after days of her being born. After meeting those demands, Ms.  
9 Price, deliberately changed plans based on more false allegations and scheduled  
10 my daughter to be remove from my custody while at the hospital.

11 Ms. Wearing, a **Foster Care Worker, at the Oakland Family Service Center**,  
12 violated my 1<sup>st</sup> amendment by showing and making bias comments against the  
13 nature of my religion and how I share it with my daughter, at the family center and  
14 at court. I witnessed in court, to her perjuring under oath, increasing false  
15 allegations against me and added more defaming statements, to not only ruin my  
16 reputation, but to not have any chance to be considered as a nurturing parent and  
17 have custody of my daughter. She has shown by her attitude and behavior, set on to  
18 deliberately destroy any chance to have a relationship between my daughter and I  
19 based on violations of section(s) 1 & 2.

Judge Lita Masini Popke

U S & Canada Border Patrol

**All are subject to violations in section(s) 1 & 2**

Filed 2 cases, separate incidents; 1. A complaint of physical abuse

2. A complaint over threatened to be shot

With the first incident there was too many issues to get the case resolved, with several entities involved, resulting in no resolution and case being closed. The assailant is still free without being arrested. With the 2<sup>nd</sup> incident there wasn't a follow up call and neither case was thoroughly investigated.

The same issues of harassments occurring with me presently are the same issues that I had witness of my ex-husband. I was present with him with other police precincts and before Judge Popke, at the 3<sup>rd</sup> Circuit Court. He presented necessary evidence and tried to apply for a PPO against his harasser. All evidence and the PPO were both denied.

With U S Customs, I was harassed unnecessarily and deliberately hinder me from crossing over into Canada, based on false allegations and intentionally kept me from planned activities in their country with my children. This was a first occurrence that I had experienced, for I visited many times before with no change in status, both by tunnel and over the bridge and now face this situation at the same time of present harassments.

Includes all court personnel and other associates involved on dates of service

**All are subject to violations of sections 1 & 2**

All have conspired to intentionally defame and ruin my reputation as a nurturing mother, resulting in trying to deceptively remove my sons from my custody by changing custody status. Any attempt or ongoing activities planned for my children was deliberately downgraded and slandered. Favoritism was shown by the courts more for the father based on false allegations made upon me. And subjected to unnecessary court appearances, meetings and changes to visiting hours of our children.

Confusion with the change and starting date of support are issues of concern. I have used the chain of command, even a letter to the Attorney General to resolve issues that affects both me and my children's father and after 3.5 years, there's still no resolution.

## THE ARCHETYPICAL JOINT POLE, DEFINED

The following definition of *Joint Pole* is an expanded version of the definition found in *Newton's Telecom Dictionary*, 18th Edition (New York: CMP Books, 2002, p. 410; reprinted by permission of Harry Newton).

### Space Allocation on Joint Poles

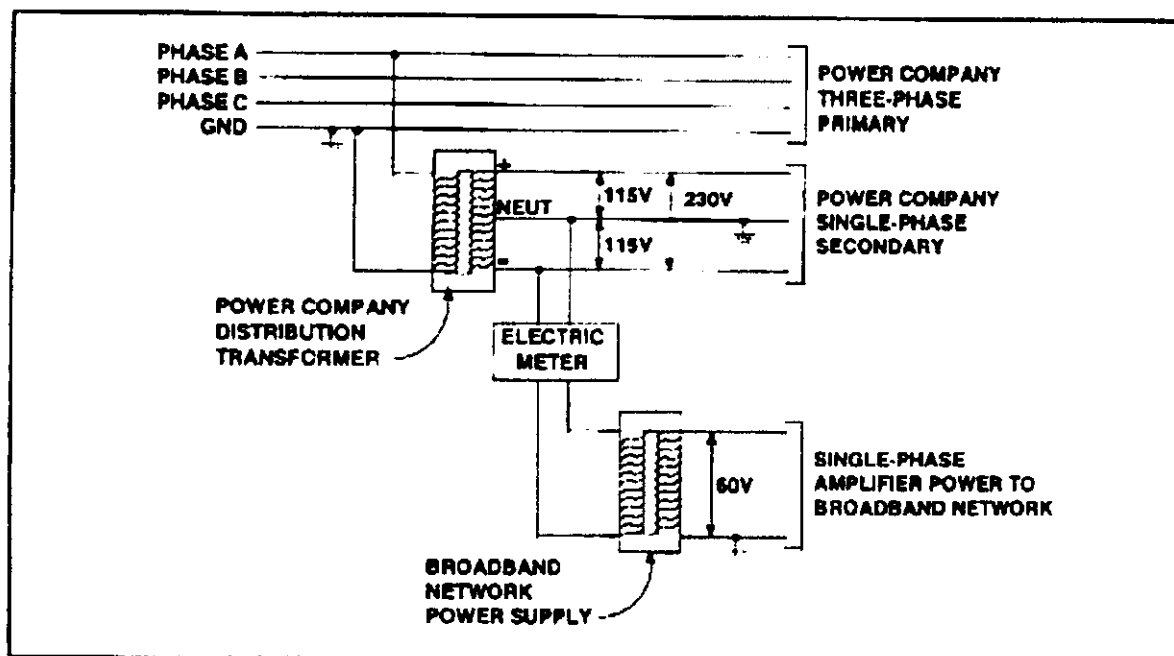

**JOINT POLE:** A utility pole which supports the facilities of two or more companies. A typical joint pole supports three facilities: electric power, cable television, and telephone. Some joint poles also support all manner of other devices: streetlights, signs, traffic signals, seasonal decorations, fire and police call boxes, antennas, municipal communications systems, OPGW (optical ground wire) fire- and police-alarm signal wiring.

Case 2:16-cv-10218-SJM-RSW ECF No. 1 filed 01/22/16 PageID.30 Page 30 of 42

The CATV power supply receives its operating power from the power company's secondary distribution circuit, at 115 volts, 60 Hz. Depending on the power company's billing policies, CATV power supplies may be metered, or they may be billed on a flat-rate basis. The power supply illustrated here is metered; the meter is visible below the power supply.

The following sketch illustrates a typical wiring diagram for a metered CATV (broadband network) power supply:

## Joint Pole VIII

Power, Transformers, CATV,  
Telephone, Fiber Optic Cable

This pole supports a separate fiber optic cable in the communications space. It's probably a voice- and data-communications cable owned by a telephone company.

The pole attachment clamp supports the fiber in a padded cylinder so that wind-induced vibrations do not cause the fiber to scrape against metal. The red plastic sleeve above the clamp identifies the name of the owner and provides a contact telephone number.

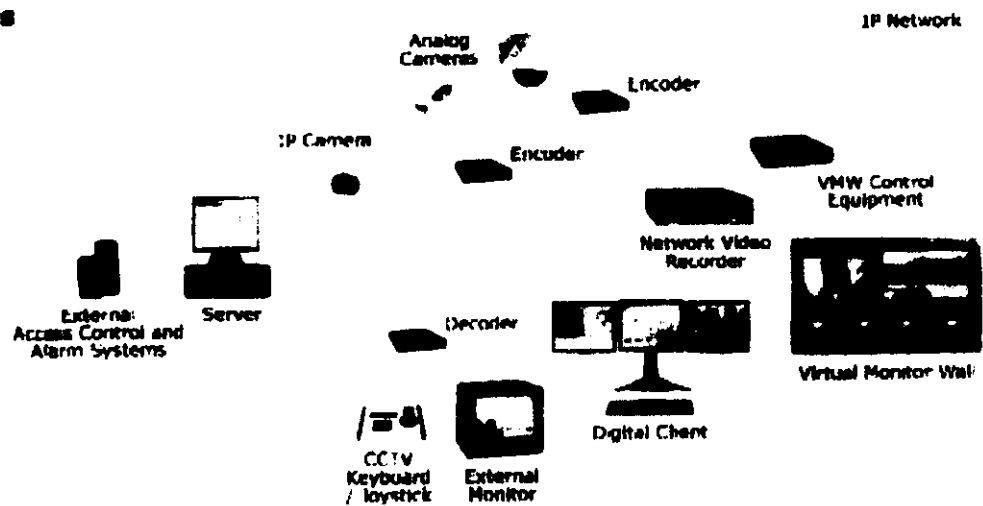

Farlington, New Mexico, 2004

## IP Systems

### Cellphone antennas on top of high buildings

In some case (mainly in cities) the mobile phone companies will install sets of mobile phone antennas on top of toll existing buildings. One of the rooms and the top of the building, roof or spire is rented to the cellphone company. In the room the mobile phone company installs their equipment that drives the signal to the antennas. On the roof they will install the antennas. The people who live and work on the building where the antennas are installed on, especially on the near the location where the antenna is connected to the building will be exposed to radiation from the side lobes of the antenna. People who live or work across the street might be exposed to the main lobes.

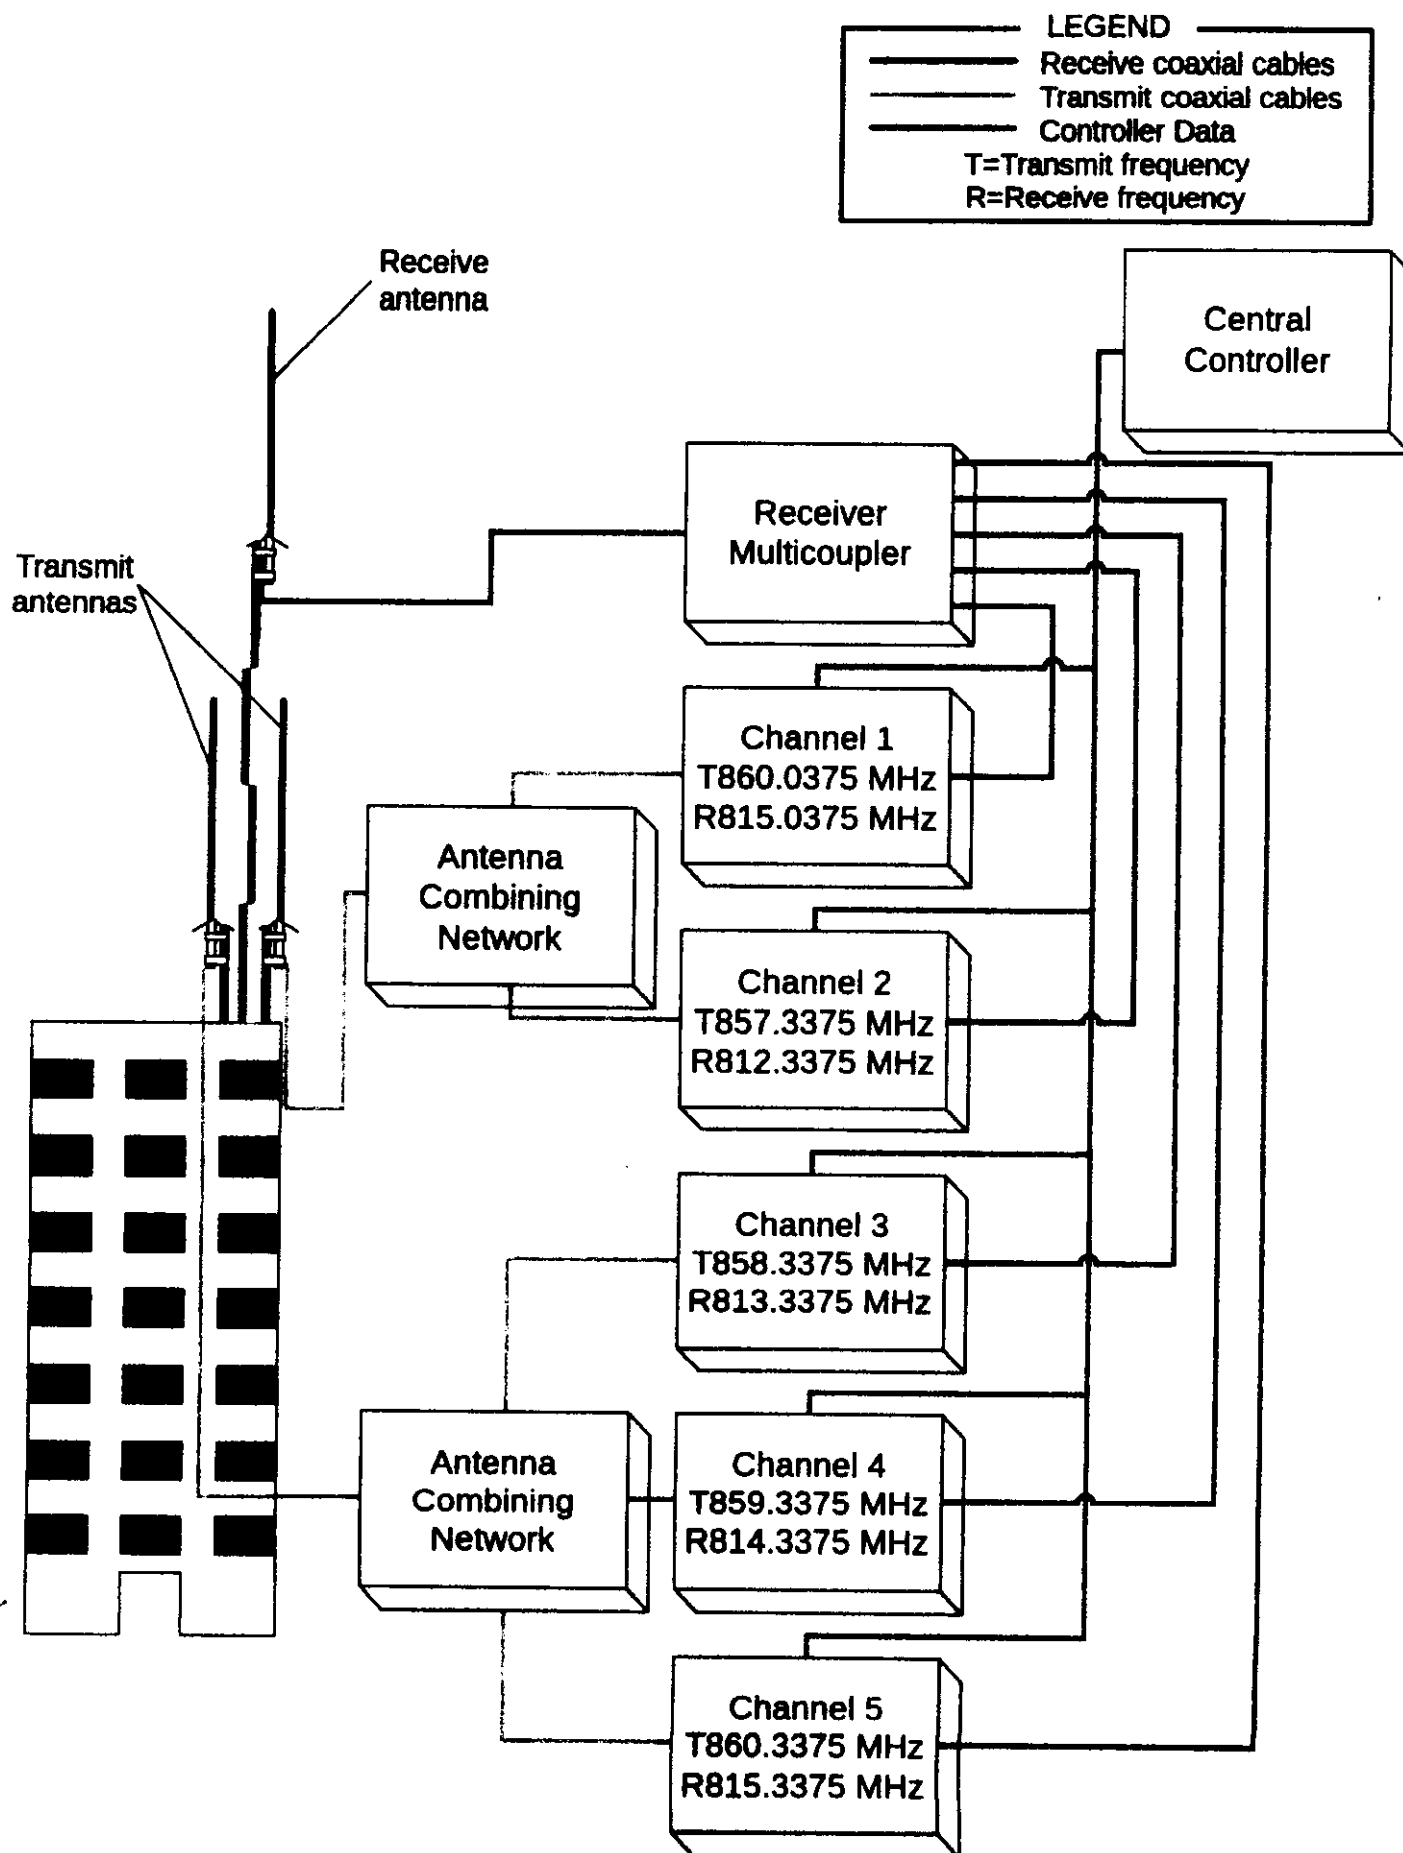

*picture - cellphone antenna on a building*

### Antenna related equipment

Every antenna needs a wide set of electric, electronic and computerized equipment in order to work. Amplifiers, RF transmitters, servers and controllers, air condition, backup power supply units and lots of cables. All this equipment is usually stored in a room or a container which is very close to the antenna itself. This equipment is usually a source for noise (from the air condition units) and Extreme Low Frequency (ELF) Electromagnetic Radiation (EMR) from the power units, electric cables and other equipment.

Understanding Radiation: [Ionizing & Non-Ionizing Radiation](#) [Health Effects](#) [Radiation Protection Basics](#)

## Radiation: Non-Ionizing and Ionizing

Radiation has a wide range of energies that form the electromagnetic spectrum (illustrated below). The spectrum has two major divisions:

- [non-ionizing radiation](#)
- [ionizing radiation](#)

Radiation that has enough energy to move around atoms in a molecule or cause them to vibrate, but not enough to remove electrons, is referred to as "non-ionizing radiation." Examples of this kind of radiation include visible light and microwaves.

Radiation that falls within the "ionizing radiation" range has enough energy to remove tightly bound electrons from atoms, thus creating ions. This is the type of radiation that people usually think of as 'radiation.' We take advantage of its properties to generate electric power, to kill cancer cells, and in many manufacturing processes.

The energy of the radiation shown on the spectrum below increases from left to right as the frequency rises.

### Types of Radiation in the Electromagnetic Spectrum

UVA	Black light, Sunlight	318–400 nm	750–950 THz	Eye: photochemical cataract; skin: erythema, including pigmentation
Visible light	Sunlight, fire, LEDs, light bulbs, Lasers	400–780 nm	385–750 THz	Eye: photochemical & thermal retinal injury; skin: photoaging
IR-A	Sunlight, thermal radiation, incandescent light bulbs, Lasers, remote controls	780 nm – 1.4 $\mu$ m	215–385 THz	Eye: thermal retinal injury, thermal cataract; skin: burn
IR-B	Sunlight, Thermal radiation, Incandescent light bulbs, Lasers	1.4–3 $\mu$ m	100–215 THz	Eye: corneal burn, cataract; skin: burn
IR-C	Sunlight, Thermal radiation, Incandescent light bulbs, Far-infrared laser	3 $\mu$ m – 1 mm	300 GHz – 100 THz	Eye: corneal burn, cataract; heating of body surface
Microwave	PCS phones, some mobile/cell phones, microwave ovens, cordless phones, millimeter waves, airport millimeter scanners, motion detectors, long-distance telecommunications, radar, Wi-Fi	1 mm – 33 cm	1–300 GHz	Heating of body tissue
Radio-frequency radiation	Mobile/cell phones, television, FM, AM, shortwave, CB, cordless phones	33 cm – 3 km	100 kHz – 1 GHz	Heating of body tissue, raised body temperature
Low-frequency RF	Power lines	>3 km	<100 kHz	Cumulation of charge on body surface; disturbance of nerve & muscle responses
Static field <sup>[2]</sup>	Strong magnets, MRI	Infinite	0 Hz (technically static fields are not "radiation")	Electric charge on body surface; vertigo/nausea due to magnetic field

#### Human anatomy

The human nervous system is composed of two main parts; namely, the central nervous system (CNS) and the peripheral nervous system (PNS). The central nervous system is comprised of the spinal cord and the brain, while the peripheral nervous system is composed of nervous tissue connecting the central nervous system to the other parts of the body. The peripheral nervous system is responsible for relaying information and feedback to the central nervous system. The PNS is comprised of the autonomic nervous system and the somatic nervous system, each of which have different functions.

The autonomic nervous system is also known as the visceral nervous system. It is responsible for automatically regulating the body's internal controls, ensuring that it is functioning normally. The autonomic nervous system is further divided into the parasympathetic nervous system and the sympathetic nervous system. The parasympathetic nervous system is comprised of the cranial nerves, while the sympathetic nervous system is responsible for regulating the body's functions when the body is under stress.

All in all, the peripheral nervous system includes the spinal nerves, the roots, the cranial nerves, as well as the autonomic nerves. Autonomic nerves are responsible for controlling our bodies' automatic systems, like the nerves that control the muscles lining our glands and blood vessels as well as the nerves that control our hearts.

The autonomic nervous system relays information to and from the brain and the various automatic organs in the body. The autonomic nervous system is responsible for regulating the body's systems, like when the cardiovascular system responds to different situations. It also regulates the production of digestive fluids and the activity of your sweat glands and other things to respond to a constantly changing environment. It also controls our bodies when they are at rest or when we are asleep.

The somatic system, on the other hand, includes the spinal and cranial nerves. These nerves transmit information to and from our external sensory organs and our muscular system. These nerves allow us to control our muscles, allowing us to move about and perform intricate actions and movements. This system is responsible for controlling our senses of sight, touch, sound, taste, and smell. It is also responsible for allowing us to feel sensory feedback like pain, temperature changes and our sense of balance. It also controls certain functions, such as when we blink our eyes.

The peripheral nervous system is essential to the human body. Without it, we cannot move our bodies or perceive the world we live in. Our bodies' organs will also shut down, causing immediate death. Thus, it is necessary to take care of it. You can consult with a neurologist to see what you can do to keep your peripheral nervous system healthy.

## CIVIL COVER SHEET

County in which action arose WAYNE

The JS 44 civil cover sheet and the information contained herein neither replace nor supplement the filing and service of pleadings or other papers as required by law, except as provided by local rules of court. This form, approved by the Judicial Conference of the United States in September 1974, is required for the use of the Clerk of Court for the purpose of initiating the civil docket sheet. (SEE INSTRUCTIONS ON NEXT PAGE OF THIS FORM.)
